Jhajjar, Haryana, India | +91-8607707478 | sehrawatpriya430@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Motivated Computer Science undergraduate with a strong foundation in full-stack web development, data structures, and software engineering. Proficient in React.js, Node.js, Express.js, MongoDB, PostgreSQL, and REST APIs, with hands-on experience gained through industry internships and real-world projects. Passionate about building scalable, user-centric applications and eager to contribute to innovative software development teams.

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript (ES6+)
Frameworks & Libraries: React.js, Node.js, Express.js, TanStack Start, Tailwind CSS
Databases & Backend: PostgreSQL, MongoDB, Redis, Supabase, REST APIs, JWT Authentication
Core Concepts: Data Structures & Algorithms, OOP, DBMS, System Design Basics, Responsive Design
Tools: Git, GitHub, AWS, Firebase, VS Code, WebSockets

PROFESSIONAL EXPERIENCE

Infrastructure Research Intern — Maruti Suzuki India Limited

Gurugram, Haryana

May 2026 – Jul 2026

App2Rack Infra Control

- Worked on the App2Rack Visibility Platform, a research-oriented infrastructure management project focused on application-to-rack dependency mapping.
- Studied enterprise IT infrastructure components and analyzed application deployment across servers, racks, and data center environments.
- Prepared infrastructure documentation, dependency reports, and application visibility workflows to improve infrastructure traceability.

Software Development Intern — Maruti Suzuki India Limited

Gurugram, Haryana

May 2025 – Jun 2025

- Developed a web application on ASP.NET Web Forms and SQL Server for logging and managing vehicle fault records, replacing a manual process.
- Implemented form validation and backend integration, improving data accuracy and retrieval for the service team.

PROJECTS

RapidResQ — AI-Enabled Emergency Response & Healthcare Coordination System

React.js · Node.js · PostgreSQL · MongoDB · Redis

- Architected a full-stack platform connecting patients, hospitals, and ambulances with real-time location tracking and notifications via WebSockets.
- Built an AI-based triage module to auto-prioritize incoming emergency cases by severity, reducing manual dispatch decisions.
- Designed secure REST APIs with JWT authentication and combined PostgreSQL and MongoDB to balance relational integrity with flexible case/event logging.

App2Rack Infra Control — Enterprise Infrastructure Management Platform

TanStack Start · React.js · Tailwind CSS · Supabase · PostgreSQL

- Developed a full-stack platform for managing applications, servers, racks, and data centers, including application-to-infrastructure mapping.
- Built real-time dashboards, inventory management, and data import modules for infrastructure visibility and reporting.
- Integrated Supabase authentication and role-based access control alongside PostgreSQL-backed reporting.

EDUCATION

B.Tech, Computer Science Engineering — VIT Bhopal University

Bhopal, Madhya Pradesh · CGPA: 8.61 / 10

Sept 2023 – Present

Class XII (CBSE) — The Heights Sr. Sec. School

Jhajjar, Haryana · 85%

2023

Class X (CBSE) — G D Goenka Public School

Jhajjar, Haryana · 90.6%

2021

CERTIFICATIONS

- IBM Data Analyst Professional Certificate — IBM
- ServiceNow System Administrator Virtual Internship — AICTE, ServiceNow University & SmartBridge, 2026
- Introduction to Machine Learning — NPTEL, 2025
- The Bits and Bytes of Computer Networking — Google (Coursera), 2025
