

PRIYA

DATA ANALYST

Jhajjar, Haryana | sehrawatpriya430@gmail.com | LinkedIn: www.linkedin.com/in/priya-sehrawat-310a18289

ABOUT

Motivated Computer Science Engineering student with hands on experience in data analysis, machine learning projects, and software development fundamentals. Experienced in handling real world datasets through internship exposure and analytical projects. Seeking opportunities to apply problem solving, analytical thinking, and technical skills in data or software roles.

TECHNICAL SKILLS

- Programming: C++, Java (basic), Python (learning)
- Web Development: HTML, CSS, JavaScript, Front End Development
- Data Analysis: Python, Excel, Power BI, Data Cleaning & Visualization
- Tools: Git, GitHub, Canva
- Core Concepts: Data Structures & Algorithms, Problem Solving

EDUCATION

B.Tech – Computer Science Engineering
Vellore Institute of Technology (VIT), Bhopal
CGPA: 8.3 / 10

PROFESSIONAL EXPERIENCE

Intern – Maruti Suzuki India Limited, Gurgaon **May 2025 – June 2025**

- Worked on Project Control Number Data Updation to maintain and organize engineering project records
- Performed data handling, verification, and structured updating of project information.
- Improved accuracy and efficiency of project tracking through systematic data management.

PROJECTS

Plant Leaf Disease Detection Model

Developed a deep learning model using YOLOv8 to detect and classify plant leaf diseases. Performed image preprocessing and trained the model to achieve high classification accuracy.

Technologies: Python, OpenCV, TensorFlow, YOLOv8

Finance Data Analysis Project

Analyzed financial datasets to extract trends and insights supporting decision making. Performed data cleaning, visualization, and analytical interpretation.

Technologies: Python, Power BI, Excel

ADDITIONAL INFORMATION

- **Languages:** English, Hindi
- **Certifications:** IBM Data Analyst Professional Certificate, The Bits and Bytes of Computer Networking
